Karah Block MBA

karahblock1@gmail.com · linkedin.com/in/karahblock · karahblock.com

Product leader for problems that don't come with a playbook. Builds software and hardware products through user research, rapid prototyping and clear plans teams can act on. Experienced leading cross-functional teams across four time zones.

SKILLS

Product: Strategy, roadmaps, requirements, user research, UX design, prototyping, go-to-market
Leadership: Cross-functional teams, stakeholder management, operations
Tools & methods: Figma, AI workflows, Claude, Codex, Python, Excel, Salesforce, Agile/Scrum

EXPERIENCE

COO & Head of Product — Jul 2025 – Present
Strategy & Marketing Contributor (part-time) — Jul 2023 – Jun 2025
ecobrew | Climate tech: helping breweries and distilleries capture the CO_2 they vent instead of buying it back

- Delivered a working CO_2-recovery prototype in **five months**, turning the vision into an actionable plan and coordinating priorities, sourcing, assembly and testing.
- Automated three-hour trials previously requiring two operators, increasing throughput from one trial per week to **two–three per day**.
- Proved a **~40%** capture advantage over competitors, improving customer savings and the system's unit economics.
- Found and sized new markets through customer research, market analysis and economic modeling, identifying a potential **$19M+** annual CO_2-value opportunity and advancing to formal discovery under NDA with a **Fortune 1000** distillery brand.
- Created fundraising materials supporting **$300K raised** and **$120K** in term-sheet offers; scoped pilots that secured **multiple LOIs**.
- Managed procurement and suppliers, solving hard sourcing problems on a startup budget.
- Built an AI analysis workflow (Claude/ChatGPT, Python, Excel) that cut trial analysis from 2+ hours to ~6 minutes, including cross-trial comparisons and sensor-error analysis.

Product Management & Design Consultant (part-time) — Mar 2026 – Present
Peak Performance Solutions | Public-safety SaaS with 1.4M+ users

- Led UX for **25+ features** in 8 months (**15+ live**), making complex compliance tasks intuitive.
- Built a **37-component** Figma design system and 40+ specifications; encoded its patterns in an AI workspace to generate clickable prototypes in minutes.
- Designed package tiers, paywall and upgrade flows for a paid tier launched October 2026.
- Replaced a spreadsheet-and-email process with an intuitive, transparent admin workflow.

Founder & CEO — Jan 2024 – Jul 2025
Metre | Sustainable apparel brand

- Founded and ran an apparel brand end to end, solving fit across heights through customer research and sample testing.

Senior Product Manager — Feb 2023 – Jul 2023
Product Manager (promoted in 8 months) — Jun 2022 – Feb 2023
Analytics & Project Management Intern — Oct 2020 – May 2021
Shipshape Solutions | Smart-home app platform

- Led product for a nine-person team across four time zones; managed three designers.
- **Doubled release frequency** and increased output with Agile/Scrum and a smoother design handoff.
- Automated support workflows in Salesforce, replacing spreadsheets, with customer data synced to the company database.
- Became the go-to voice of product, bringing team and customer feedback to product and leading release training.
- Led a complex in-app purchasing system supporting offering creation and changes without development work.
- Built and evolved in-app notifications with clearer alerts, data graphs and next steps based on customer feedback.

EDUCATION

The University of Alabama · MBA, Strategic Management (2022) · BS, Mechanical Engineering, GPA 3.94 (2021)
